

Budapest Summer Science Camp

Call for application

Date: 28.07.2018–04.08.2018.

Location: Budapest

Let's make a startup!

In 2017, the International Summer Science Camp took place for the first time in Budapest, Hungary. The one-week long camp gathered 100 students from 20 countries from all over the world. The main technological topic was: test and improve the Budapest Science City Mobile Application. Encouraged by the great success of that first camp, we are pleased to announce the organisation of a second, similar event this summer. This year's topic is:

LET'S MAKE A STARTUP!

The participants will gain knowledge from 10 successful innovative Hungarian companies by involving them in technological challenges.

Outlines of the 2018 Budapest Summer Science Camp

Application: As future participant you have the opportunity to choose 3 out of 10 successful Hungarian startups - please mark them in order of interest. As soon as we receive your choices, we will assign you one of the three chosen startups.

Preparation: Each participant will be assigned to one of 10 different groups according to the field of interests. Before the start of the Science Camp group members will have to get in online contact with each other to prepare their own startup idea. Each group will be designated to specially-trained animators who will provide them with information about the chosen innovative company, a Helping Handout and a summary of the global Startup Ecosystem.

Participation: During the Science Camp, invited experts will give daily lectures on economical background and international legal advices, and will provide the groups with mentoring for the final presentation and pitching.

In the first three days of the Science Camp participants will have the privilege to follow the given startup's everyday activities. The companies will delegate specific, challenging tasks to the participants.

The objective of the 2018 Budapest Summer Science Camp is to emphasize the importance of the practice oriented learning, teamwork and the development of presentation skills.

Presentation: During the closing event, students will present their own startup idea in front of a jury of selected professionals and investors.

The 3 best concepts will be awarded with valuable prizes.

The fields of interests:

- ∫ Big Data analysis
- ∫ 3D design
- ∫ Geolocation
- ∫ Creative online platform
- ∫ Chemical safety
- ∫ Navigation
- ∫ Online child protection browser
- ∫ Chatbot

application form:
<https://drive.google.com/open?id=134pX6DyS5Q2yFmkdDHcOqEUhZ5Vy-eldVRFtltMAyuE>

Location: Budapest, Hungary

Number of participants: 100

Topic: LET'S MAKE A STARTUP

Age of participants: 15-20

Price: 150 Euro/participant

The price includes participation in all of the official programmes, the accommodation, public transport, emergency medical service, daily meals (breakfast, cold lunch bag and dinner), official camp T-shirt, badge.

Skills: Our policy is based on the development of acquired knowledge. We would like to invite young scientists, who have a particular interest in technological subjects. This Summer Camp will develop your skills of creativity, communication and presentation skills, teamwork and informatics competencies. We kindly ask you to send us a short CV of yours, to help us to determine your personalized task.

Project: Based on the acquired skills, each group will have to create its own startup. They will be supported by animators and professionals.

Accommodation: The students will be hosted in a Hostel situated in a 10 minutes distance from the central meeting point (Kossuth Klub). Rooms for 2-4 persons are available.
